NATIONAL ARCHIVES MICROFILM PUBLICATIONS

INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

April 20th Started on another scout with 30 men from My Co. accompanied by three detachments from Co. C. & H. B. (in all 124 men) under command of the Col. E. W. Woodman in quest of guerrillas that had succeeded in capturing the Capt. of Co. B. & 14 men who were repairing the telegraph line from Donaldsonville to Baton Rouge with one Co. & two detachments of six men each from Co. B. & H. Marched to the Doyle Plantation on the afternoon of the 20th & camped for the night. On the 21st marched 15 miles up the right bank of the river to the vicinity of the rebel head quarters the town of Plaquemine. On the 22nd of May at all the information possible of rebel whereabouts & decided a reconnaissance was to be made to a good defense & fortified position. On the 23rd at the first cut off below the Plaquemine gun the men ran that of telegraph 15 miles below Baton Rouge & as nearly the only point where the rebels have been approached. Have heard many rumors of large rebel forces not far away but no. Plaquemine has been much cannot discern by many signs that they are many. They may have been driven off or they may have been captured by our forces. It is probable that they have left for parts unknown. Have heard of no more.

RECORD OF EVENTS.

At Anger & Sonner May
24 863 I received order to proceed to
Donaldsonville with over three other
companies & report finding. June 21 was
arrived that the fort at Donaldsonville
was threatened by a large rebel force
I received order to proceed to that place
immediately with all my effective force
to strengthen the weak & repair the
damaged masonry of parts of the battery
- ing to our Regt. With my men the
garrison numbered about 200 men 150
of which were convalescents sent from
the hospital & small the garrison.
Genl. Banks had left for the defence
of Fort when we moved upon Port
Johnson. We could not muster about
130 men that could load & fire a

market. The Grumbert Purchase (Royal
lay in the River to help. Early in the
afternoon of the 27 a flag of truce
from the enemy asked the commander
of the fort (Maj. J. Dana Ballou
28th Maine) to remove the women &
children from the town. This was
continued into an intention to attack.
We prepared for the contest knowing
the odds to be 20 to one against us.
I was assigned with 31 men from Regt
B. (all there was left after after pick-
-eting the picket) to the defence of the
stockade & gate on the North East side
of the fort. Capt. Neal (28th Maine) was
assigned with a force of Concordians to
the defence of the gate & stockade on the
left. The cannon of the fort covered the
approach on this side & were manned by
Concordians. We laid on our arms till
half past one o'clock on the morning of
the 28th when the picket lines were fired
so quick by the enemy's Cavalry that the
pickets had scarcely a chance to give
the alarm... many hid to prevent being

Captured. The moon had just set
& left the night dark. The cannon
of the fort & Grumbert now opened on
the advancing line of the enemy. The
thick smoke enveloped the outer defen-
-ces so I could not see 10 feet from
the stockade. We had not long to wait
however. A terrific yell from 400
Teton Rangers close up to the stock-
-ade opened the fight on our side of
the fort. We struggled here but a few
moments, keeping up a perfect storm
of fire through the stockade. Large num-
-bers of the enemy forced their way
through the stockade. Dropping a number
with our rifles we then concluded
at best to retreat behind the earth-
-works of the fort. There we poured a
devastation on them from the parapet.
The gate was soon forced. Our fire
drove back at least 300 feet beyond
the reach of any of our rifles. At least
250 succeeded in gaining the shelter
of the bank immediately under our pa-
-rapet. Here the struggle was terrific.
The fight was hard to hand & mazy.
to mazy. Yet the men who never
fought before stood up like veterans.
(over)

The men were cautioned to lie low & when
a charge was made to be some of their
men & then the Bayonet. It is said
at least 20 attempts to charge. Every
man that sprang upon the parapet died.
Three separate charges made from the other
side of the fort were repulsed by Link Deal
& the big guns. The fight had lasted over
two hours. Putting some dozen men that were
sent to my relief on the right & left of
their position we opened a terrific fire upon
them from their side. Though partially
sheltered the effect of the shot was soon
apparent. In 3 hours & 20 minutes from
the commencement of the fight they were
-reduced. The prisoners were nearly 500.
The number of the slain. Thirty four lay
dead in a heap under the breast wall
shot in the head. Among these was Col.
Phillips 3" Rear Ranger acting
Orig. Genl. two Majors one Capt. &
two Lieuts. There were 128 prisoners (with
the 15 taken by Capt Deal) Among these
were 8 Commissioned Officers. Wounded
of the rebels amounted to 42 of which

there were 4 Commissioned Officers
making 12 in all of these. I lost
more than one third of my Co. in

wounded rebels by their own confu-
